

President Judge.

We clip the following remarks from the Brookville Republican, and although not personally acquainted with the subject of them, we have heard so much in his favor that we are prepared to recommend him to the people of our county and judicial district:

One of the most important and responsible duties that the citizens of this judicial district have to perform, they will be called upon to transact during the ensuing year. The term of office of the present President Judge, Hon. Jas. Campbell, expires, a successor will have to be chosen. That this is one of the most responsible positions in the gift of our people is recognized, and it is urged upon those who shall have the duty of selecting candidates for this position to act wisely; throw aside any party aspirations that might arise, if inimical to the general good, and settle on such a candidate as shall be free from any and every objection whatever. Not only a thorough jurist is required, but a man of unexceptionable character, with honesty of purpose, and a fair representative of the bar of the district.

Without a consultation with the gentleman himself, we would venture to suggest the name of our townsman, A. L. Gordon, Esq., for this position. He undoubtedly possesses all the required fitness for the position. His legal acquirements and experience are not questioned, while as a courteous gentleman and obliging attorney he has not many superiors and but few equals. We hope that the Republican Nominating Conventions of the district will act wisely and put in nomination Mr. Gordon, as with him as our candidate success is possible and altogether probable, even with Democratic opposition to oppose us. At least, we know of no one more deserving, or that will receive a more hearty support of our people.

Two weeks ago we mentioned as an instance of Democratic progression that the Warren Ledger had expressed its willingness to "enthusiastically welcome" Mr. Nasby to that city to try and discover the man of sin. It was rather a stunner to us that the Ledger man should receive with open arms a man, who is generally considered odious to the Democratic party, because he tells the truth about them. But there was plenty of room for repentance in that direction, and we hailed with joy the slightest symptoms of contrition Nasby has been there, and lectured, but his description of the sinful man seemed to fit a little too close, and the Ledger devotes half a column to wiping him out in last week's issue. We have only room for the concluding strain:

"Our annoyance is, now that we have invested, that Nasby's lungs will outwear the pages from which he reads, and that he will some time be compelled to be at the expense of re-writing or having the old lecture re-printed. The process will cost him one hundred and ten dollars, provided he does not make the re-production on Sunday and thereby be enabled to present his stupidity six nights in the week, without stopping for repairs."

Mr. Nasby read the above, and went into convulsions, and has been in a critical condition ever since. He has announced his intention of quitting the lecturing business, if he recovers.

TIONESTA & CLARION RAIL ROAD. We are glad to chronicle, what we have no reason to doubt is the fact, that capitalists of this and other places have become interested in this project to such an extent that its completion is a certainty. The success of this enterprise is mainly due to J. D. James, Esq., its President, who has labored long and faithfully. And to use his own words, success was doubtful—"so dark as to require a lantern when the sun was at meridian."

Mr. John Hill, the Secretary, duly appreciating the importance of this work, has stood by Mr. James faithfully, and to him must be credited much praise. The project hereafter, but are not at liberty to communicate names at present. Suffice it to say that we know the parties to be gentlemen of character and wealth. The completion of this road will add much to the wealth and population of our Borough and County. Let us hope there may be no mistake. —Warren Ledger.

The degeneracy of the times, and the unreliability of everything human has extended to the ground-hog. In the days of our ancestors, when the afforesaid animal emerged from his winter quarter on Candlemas day, and saw the shadow of his tail, his word could be taken that six weeks of hard winter would ensue; now not the least dependence is to be placed in the woodchuck. This season has shown him to be about as bad as the average of human beings. —Meadville Republican.

The name of the post office known as "Lawrenceburg," Armstrong county, Pa., has been changed by the department to "Parker's Landing." The change of base of business caused by the loss of interest, as well as the greater familiarity of the name now adopted, is given as the cause for the change.

Last Sunday about three o'clock another sad accident occurred by which a young man was suddenly deprived of his life. The facts of the case are as follows: Saturday afternoon Arthur Bebee, accompanied by his uncle, Albert Bebee, went into the woods about three quarters of a mile south of this city to cut logs. They carried with them a shot gun with which to kill any game that might come within their range. The gun was placed among some bushes near one end of the log on which they were working and in front of young Bebee. It becoming necessary to remove some of the brush to give them a better chance to work, the uncle busied himself about this, while Arthur leaned over the log and grasped the gun by the barrel, drawing it toward him, the muzzle being only a few inches from his heart. The hammer was caught in the brush, drawn back, the gun discharged, the contents entering the heart of the unfortunate young man. He called out to his uncle, "I am shot through the heart!" fell forward across the log, and instantly expired. He was taken to the home of his father, John H. Bebee, near by, and Dr. Stubbs was summoned, but the vital spark was extinct. The agony of the distressed over their sudden bereavement was heartrending to behold, and they have the sympathies of the whole community. The deceased was a young man 17 years old, and beloved by all who knew him. —Curry Blade.

A new well was struck on a portion of the R. L. Shaw farm owned by Harrington and Groesbeck, near Stand-Off City, yesterday afternoon, which is estimated as yielding from 80 to 100 barrels per day, some even placing the production as high as 125 barrels. The working interest is owned by Buyer & Halton. The tract of land on which this well is located lies in an easterly direction from the Plumer road, and the territory immediately surrounding it is comparatively new. Our townsmen, Messrs. M. E. Hess, Patron & Dickey and others are the fortunate owners of 35 acres of land adjoining the new well. We are informed it is their intention to commence developing this tract soon. —Pet. Centre Record.

The following from the Titusville Herald: Mr. John Parks has received the appointment of Superintendent of the Union & Titusville Railroad, and yesterday entered upon the performance of his duties. Mr. Warmcastle will occupy the position of Assistant Superintendent.

A petition was presented the Council last evening for the suppression of concert saloons, a species of moral ulcer that has lately cropped out on some of our principal thoroughfares, and threatens to be extensively planted. On motion, the prayer of the petition was granted, and the police charged to abate the nuisance.

The Grand English Opera Combination were highly pleased with our city and the cordial appreciation of their artistic performances. They desire, also, to make a public acknowledgment of the kind and liberal treatment extended to them by Messrs. McCrum, Matthews & Smith, Managers of the Opera House, as will be seen by their card in another column.

Nine divorce cases are to be acted upon finally at the next term of Court in this county. The same number was advertised for January.

Thirteen new wells are going down at Coal City, Foster station. Angell, Prentiss & Co. are the principal operators. The town is going ahead thrifflily.

At the request of many citizens, Rev. W. P. Bignell of this city was induced to extend an invitation to Bishop Simpson to deliver his celebrated lecture in this city on "Bismarck and Napoleon," and yesterday a telegram was received from the Bishop that he would come. The time is fixed for some day in the latter part of next week, of which due notice will be given. Bishop Simpson is one of the first pulpits orators of the country, and enjoys a National reputation for eloquence and high ability. He will be sure to draw a large house.

We take the following from the Elk Advocate: On last Saturday, 25th ult., a man, by the name of Krumme, was found dead at Lane's Mill (blue rock), this county. He is supposed to have come to his death from heart disease, as there was no mark of violence on his body. He had been engaged, previous to his death, in skidding logs with a team of horses. His remains passed through this place, on Sunday morning, on their way to Potter county.

Governor Geary has appointed our popular townsman Hon. Henry Southern, to the position of Additional Law Judge for Schuylkill county. We are gratified to note this mark of confidence in Mr. Southern, and will say that he will fill the position with ability and credit to himself and satisfaction to those interested. He has had an extensive practice in this and adjoining counties for the last twenty years, and stands deservedly high in his profession. We congratulate Judge Southern on his promotion, and can only regret that his gain is our loss; for in losing him as a citizen, we lose not only a good lawyer, but an enterprising, public spirited citizen and a pleasant social gentleman.

John W. Bowman, while engaged, digging roads, at the Eagle Valley Mill, on Saturday the 18th ult., had his left hand badly cut by its coming in accidental contact with the saw. Dr. Bordwell is the attending physician and he thinks the hand can be saved.

The following from the Venango Citizen:

A well located on outlet 111, adjoining the McCalmont farm, in Sugar creek town ship, owned by Say & Matthews, commenced pumping the latter part of the last week and is now a 25 bbl. well. This well opens a large tract of new territory.

A well owned by Carroll, Haskell & Co., located on Kelly farm, on Two Mile Run, commenced testing last week, and is yielding three barrels per day, heavy oil.

The excitement along east Sandy is increasing, and the coming season will see large developments in that quarter. The Canning well pumps regularly some 20 barrels per day. About twenty-five other wells are on the way—some of them nearly down.

A new well on the Clarion river, about a mile from the mouth, is pumping 15 barrels a day.

On Sunday evening last, a terrible explosion occurred at the Twilight well on the Hill above Parker's Landing, owned by Kern & Tillinghast. Charles Tillinghast and John Trucks were instantly killed, and W. H. Kern badly scalded. The explosion was caused by a too high pressure of steam. Theerrick and engine house are a total wreck. Portions of the boiler were thrown into the river a distance of several hundred yards.

Mr. Charles Tillinghast, who was a large framed, fleshy man, was blown fully two hundred feet down the hill. When picked up, but two slight marks were found on his body. His body remained warm for several hours, and at nine o'clock Sunday night warm blood exuded from his ears. Some of the physicians in attendance contended that he was merely in a state of coma, but a few hours dispelled all hope.

On last Wednesday evening, some workmen at the red tanks above the mouth of Clarion were moving pole tools, when the south bound express train came along at full speed, and Mr. James Mahan tried to save a line which was stretched across the track. The man did his utmost, but was not quick enough; the bumper struck him on the right side, in front of the hip, and knocked him on the man-catcher, to which he clung with a will and commendable presence of mind until the train was stopped. One of his feet dragged upon the ground and struck against the ties, bruising his ankle very severely, but fortunately no bones were broken.

The following we take from Clarion Democrat:

A sad occurrence took place last Thursday afternoon, at the Catholic school in this place. During recess, the scholars were playing ball, when a paddle or bat which one of the boys was using, accidentally slipped out of his hand and struck another, named Joseph Hartle, son of Mr. Geo. Hartle, which soon caused extension of the brain, and resulted in his death the next day. He was fourteen years of age, and his sudden death cast quite a gloom over the community. His parents have the sympathy of all in their bereavement.

Those papers and people exercising themselves about the light sentence of Austin lately tried for manslaughter in our court, show bad taste, to say the least. The facts clearly proved that Austin was only guilty of being intoxicated, and carelessly shooting off a revolver. The prosecution did not attempt to charge him with the intention of killing anybody. After a full hearing of the case, the jury found Austin guilty of involuntary manslaughter, and Judge Campbell sentenced him to pay a fine of \$200, and undergo an imprisonment of eight months. We believe justice was done, and neither the court or jury should be censured—particularly by those unacquainted with the facts.

The ice went out of the Clarion river the first of this week, and rafts have been running. Lumbermen were not generally ready for such an early break up, but rafting in is now the order of the day, and a large amount of lumber will go out this next rise.

A short time ago, a party of the elite of Tidioute, numbering about one hundred couple went over in sleighs to Titusville, to hear Miss Kellogg perform in a newly erected Opera House.

They "came they saw," they heard, but whether they conquered or not remains to be told.

The Tidioute (on some of them) remarked that "Tidioute had turned out a hundred or more buckwheats to the performance. This remark reached the ears of some of the fair ones of Tidioute of course; and one of them replied: That buckwheats or not, one thing she observed, and that was, that the Tidioute were not only the best looking party in the house; but in addition to that they occupied all the reserved and front seats; and furthermore that the Opera house was built and owned by one of the "Tidioute buckwheats." Now Mr. Titusville in the graphic though mistaken language of the Teuton "how high is do?" "Do you see do shoke?" —Kittanning Sentinel.

The following is the Herald's description of a watch, which was presented to Major Mills, formerly of the American House, of Titusville:

The watch was purchased of Isham & Co., and is an elegant Swiss stem-wind, nickel movement, accurately adjusted, four jewels around each hole, and holes punched for more. It is worth \$350, and bears the following inscription: "To S. M. Mills, from his Titusville friends, March 1, 1881."

LECTURES.—Two lectures and one reading are yet to be delivered under the auspices of the Franklin Lecture Association, and not two lectures only, as we erroneously announced last week. Wendell Phillips is the next lecturer. He will be here on Wednesday the 15th of March. The next will be Miss Olive Logan, who will lecture on Friday, the 24th. Mr. James E. Murdoch will close the course of entertainments as arranged by the Association. The date of Mr. Murdoch's reading has not been ascertained yet. —Venango Spectator.

The latest thing in the boot and shoe line at Boston is a crimped calf boot, the calf skin tanned with the hair on, and made up with the hair on the outside, tipped with alligator leather. Ladies' boots of the same style have also been made.
